

- Amendment for Brett Fairchild / July 30, 2018 Report

AMENDED

October 12th, 2018

On September 21st 2018 I received a letter from the Kansas Ethics Commission stating that two of the contributions I received may have been illegitimate and may have to be returned. The two contributions they listed were from the Tony Mack Delp Trust and the Ernie Richardson Trust. I then called the Kansas Ethics commission and spoke to someone there. The individual I talked to told me that I wouldn't need to return the contributions as long as only one person owns each trust. I then contacted those two individuals, and they told me that no one else owns either of those trusts. Therefore, the contributions were legitimate and don't need to be returned. Please keep this letter for your records. Thank you.

Brett Fairchild
